## Meet the pupzilla!

- ① What do you think of when you think about puppies? They're cute and fluffy fur balls that do nothing but eat, play and sleep. All you want to do is to cuddle them and shower them with kisses. Well, not the one I have. Don't get me wrong. I usually love puppies, but this 'pupzilla' is trying to ruin my life!
- ② It all started when my mum took the pupzilla home last week. You might think it looks completely harmless, but think again! At the beginning, it seemed normal. It welcomed me at the door, just like any other puppy. But as soon as I took off my (brand new) trainers, it took one of them and destroyed it with its sharp teeth!

# 英語能力

③ ‘Bad dog!’ my mum said. It didn’t look sorry at all. It just sat there grinning from ear to ear, looking so happy about what it did. I bet it was thinking, ‘Ha ha, everything is mine now!’

④ Maybe you’re still thinking, ‘It’s just an innocent puppy that wants something to play with.’ No. You’re W-R-O-N-G. I’ve never had a good night’s sleep ever since it arrived. (Just look at my eye bags!) Two days ago, it ate my homework! Yes, my dog ate my homework. And that’s exactly what I told my English teacher. He didn’t believe me. (No, duh!) He told me to come up with a more creative excuse and punished me. So much for telling the truth!

⑤ Sometimes, it does cute puppy things like asking for rubs. My parents fall for it every time, and they forget the things it did. They never pay attention to me any more. The talk about now is how cute ‘Smoochie’ is. That’s it! I’m not going to let a puppy walk all over me, so I came up with this. If you want to know what it is, stay tuned for ‘Freeing the pooch slaves’ in my next blog entry!

餘下約4分鐘時間，  
同學須按老師提問回  
答三條題目。

Q1. According to the writer, what are the three things that puppies usually do?

Q2. Did the puppy know it did something wrong? Provide TWO pieces of evidence from paragraph 3 to support your answer.

Q3. Why did the writer’s English teacher think the writer was lying about her homework?
